

Website Committee Annual Report 2001-2002

Several new items were posted on the website this year. CSHP position papers on: [The Role of Pharmacy Technicians](#) and [Pharmacist Prescribing in a Health Care Facility](#) are available for viewing on the website. The branch newsletter is posted on the site. The membership section was updated with information about the 2002-2003 membership drive. A new section was added for the 2003 AGM. Currently this section contains links to Newfoundland tourism websites and a link to the Delta Hotel website.

There were concerns earlier this year about server downtimes where the website was unable to be accessed. After consulting with the service provider, the problem was identified and fixed. There have been no problems with accessing the site since this time.

Service provider fees for the website this year were \$153.84 (\$99 US) paid to Readyhosting.com. The InterNic fee for the licensing of the web address <www.cshp-nl.com> was paid in June 2001 (giving license for 2 years) and reported in last year's annual report. This fee is not due again until June of 2003. These fees are usually \$30 US per year.

Internet traffic statistics from September 1, 2001 until August 31, 2002 show that:

- the site was accessed a total of 5280 times. This works out to an average of 586 accesses a month or about 19 accesses a day. This is more traffic than reported last year when there were about 80 sessions per week (or on average 11 sessions a day)
- the majority of sessions are 1 minute.
- the sections of the website most viewed are the home page (40% of all traffic) and the internet links section (8% of all traffic).
- Most traffic came from the United States (50%) while 10% of the traffic came from Canada.
- The site was accessed by Newfoundland internet users for 191 sessions (3.6% of traffic).

Respectfully,

Dave Smith.
